HV-HD1

Veterinary 4K Endoscope Camera System

HV-HD1 is a 4K endoscope camera that produces sharp and clear image, ideal for applications in various specialties. With the latest image technology, the camera helps surgeons in diagnosis and surgery with fine details and true color that will not be seen using a HD endoscope camera. The system has also been redesigned to improve operability for surgeons.

❖ Features

★ **Producing native 4K image that is four times the resolution of HD**
★ **ENDO mode preset for specialization**
★ **A wider color gamut that ensures better observation for surgeons.**
★ **Compact and lightweight**
★ **Water-resistant**
★ **Programmable buttons**

❖ Technical Parameters

Resolution: 3840*2160P 60

Touch screen: 5 inch LCD display

Memory device: High-resolution images and videos saved on USB storage

Output: DVI/HDMI/3G-SDI

Language: English/Chinese

Product size:360mm*300mm*110mm

LED light: 100W

Color index: Ra>92

Light color temperature: 5700K

Bulb working life: 20000h

HV-D03

Veterinary Endoscope

❖ Features

★ Support For Operation Video Playback. Network Transmission, Real-time Operation.

★ High Integrated: It Is Portable As Laptop Size Instead Of The Traditional Heavey Endoscope Tower. Convenient For Mobile Medical Treatment And Clinic Examination, Etc.

★ 17.3" Medical 4k Hd Monitor: 1.07 Billion Colors, Ultra-low Latency, Can Be Used As An Extended Display, Support Hdmi 4k Signal Input

★ LED Medical Light Source: Support Full Range Dimming, Illumination ≥2000000lux

★ Camera Head: Ipx7 Waterproof, Supports Multiple Disinfection Methods Such As Ethylene Oxide And Alcohol, Compatible With Both Rigid Scopes And Flexible Scopes.

HV-E011

Protable Veterinary Endoscope System

SmartᵀVet ™

❖ Features

★ **Multi-function Buttons**

①Zoom ②Capture/Record ③Freeze

★ **120° Left/Right Rotation**

Relieve fatigue of wrist rotation

★ **Detachable Structure**

Compatible with all products

★ **Video Cable With 180° Rotation**

Easy operation

processor with 10 inch touch-screen.

HV-E022

Veterinary HD Endoscope

SmartᵀVet ™

❖ Features

★ 1/2.8 SONY CMOS FULL HD Image Sensor

★ Built-in USB Video recording function

★ Built-in LED Cold Light Source

★ The Integrated Design of LED Cold Light Source And Camer

★ IPX8 Waterproof Camera
